I understand that the Internet is a valuable learning resource and tool, which can assist my child in the research of certain topics. I also understand that although filters are placed on school networks, information available on the Internet is of an unrestricted nature – a small part of content may be inappropriate. Whilst every care will be taken by the school and individual teachers, the responsibility to ensure that no harmful information is examined must rest with the student.

I believe that(student name) understands what is required of a responsible Internet user and understands that there will be consequences for inappropriate use.

I therefore give approval for my child to use computers and the Internet whilst he/she attends school.
